

PRODUCT DATA AND APPLICATION SHEET

PRODUCT NAME **Auxiliary Contact Blocks**

PRODUCT CODE **AX04, AX11, AX22**

DESCRIPTION Auxiliary contact blocks are supplementary electrical components used in conjunction with primary switching devices like contactors and circuit breakers.

BOX QUANTITY AX04 Box Quantity of 5
AX11 & AX22 Individually packed.

FEATURES

Product	AX04	AX11	AX22
Contact Configuration	4NC	1NO + 1NC	2NO + 2NC
Mounting	Clip-on to contactor	Clip-on to contactor	Clip-on to contactor
Application	safety and fail-safe circuits where all contacts need to be NC.	General purpose interlocking and control functions	More complex control circuits needing a balance of NO & NC contacts.

APPLICATIONS

- Electrical interlocking between multiple contactors.
- Status indication for motor starters and circuit breakers.
- Integration with programmable logic controllers (PLCs).
- Safety circuits to ensure controlled shutdown of machinery.
